Docket Nos. D.T.E. 02-24/25
Responses to the Department's Sixth Set of Information Requests

Request No. DTE 6-37 (Gas):

In its calculations of the commodity costs for the test period, did the Company take into consideration the two separate GAF's approved by the Department for the Company's gas division during the 2001 Peak Period?

Response:

No. The calculation of commodity costs is based on the allocation of commodity costs in the test year. The separate GAF's approved by the Department determined the level of gas revenues in the test period, but not the level of gas costs incurred in that same period.
